# **ABOUT US**

Textile Restoration Solutions, Inc. offers professional laundry, dry cleaning and prep services to remediate bedbug infestations. An infestation can be very disruptive in more ways than one. At TRS we are here to make the entire process as simple and affordable as possible. In coordination with treatment from your reputable exterminator, you must also have all your garments, bedding, drapes, fabrics and carpets treated in order to avoid re-infestation. We have developed chemical-free processes proven to kill bedbugs at all stages at our state-of-the-art facility in the New York City Area.

# **SERVICES**

## **Laundry and Dry Cleaning**

Laundry is double processed in our high heat washers and dryers and returned fresh, clean, neatly folded and packaged. Dry cleaning is pre-treated in our heat chamber to ensure elimination of any bugs before being professionally dry-cleaned, pressed and packaged.

**Servicing the 5 Boroughs and  
Long Island**
